[^]We do not calculate interest on an Account if the account is linked to a loan account under an interest offset facility. The interest offset facility may be a "loan offset" (partial interest offset) or a "mortgage equaliser" (full interest offset). At the effective date of this brochure shown at the top of this page, the interest offset rate for a loan offset facility (partial interest offset) is 0.70%p.a. Please refer to the Transaction, savings and Investment accounts terms and conditions and general information booklet for more information on interest offset facilities.
